INTRODUCTION

The primary objective of the current study is to examine the impact of cannabis legalization on Canadians. The study examined five primary research questions, including the extent to which legalization is associated with changes in: 1) prevalence and patterns of cannabis use, including use among ‘minors’ and levels of dependence; 2) risk behaviours, including driving after cannabis use and use in ‘high risk’ occupational settings; and 3) the commercial retail environment, including the price and the type of products used, the use of high potency products, and the extent to which consumers shift from ‘illicit’ to ‘legal’ sources of cannabis; 4) perceptions of risk and social norms; and 5) the effectiveness of specific regulatory policies, including advertising restrictions, product labelling and warnings, public education campaigns, and the use of cannabis in public spaces and workplaces.

A prospective cohort survey was conducted in which participants were recruited and will be followed over four years. The pre-legalization baseline or ‘Wave 1’ survey was conducted from August-October 2018 with 27,169 respondents aged 16–65 years living in one of three jurisdictions: 1) Canada (n=10,057), 2) US states that have legalized non-medical cannabis (n=7,398), and 3) US states in which non-medical cannabis remains illegal (n=9,714). In Canada, approximately 1,000 respondents will be recruited from each province to examine differences in provincial policies and retail markets. This survey will be repeated annually (at 12-, 24- and 36-months follow-up) to monitor changes over time, as well as key mediators and moderators of use, in each of three jurisdictions.

STUDY PROTOCOL

OVERVIEW

Data for the Wave 1 baseline survey were collected via a web-based survey between August 27 and October 7, 2018. Data for the Wave 2 survey were collected starting in September 2019. Participants completed a comprehensive survey on the prevalence and patterns of cannabis use, as well as risk behaviours, social norms, etc.

SAMPLE AND RECRUITMENT

Sample Eligibility

Individuals were eligible to participate if they resided in a Canadian province or US state, were 16–65 years old at the time of recruitment, and had access to the internet.

Recruitment and Consent

Respondents from Canadian provinces and US states were recruited using the *Nielsen Consumer Insights Global Panel*, which maintains panels in Canada and the US (<http://www.nielsen.com/ca/en/about-us.html>). The Nielsen panels are recruited using both probability and nonprobability sampling methods in each country. For the current project, Nielsen drew stratified random samples from the online panels in each country, based on known proportions in each age group. To account for differential response rates, Nielsen modified these sampling proportions to place greater weight on sub-groups with lower response rates.

PARTICIPANT COMPENSATION

Monetary incentives have been shown to increase response rates and to decrease response bias among sub-groups commonly under-represented in surveys, including disadvantaged subgroups. Respondents from Canadian provinces and US states were provided with incentives according to Nielsen's regular remuneration structure.

ETHICS CLEARANCE

The project has been reviewed by and received ethics clearance through a University of Waterloo Research Ethics Committee (ORE#22392/31330).

STUDY CONTENT

Respondents completed an online survey in English or French. Survey measures were drawn or adapted from national surveys or selected based on previous research. Development included focus groups and cognitive interviewing with youth and young adults, as well as an extensive pilot test with 1,045 Canadians aged 16-30.

The survey includes models on the following content areas:

- prevalence and patterns of cannabis use
- cannabis purchasing and price
- cannabis consumption and modes of use
- commercial retail environment
- risk behaviours
- cannabis knowledge, perceptions of risk and social norms
- exposure to health warnings and public educational campaigns
- exposure to cannabis marketing and branding
- substance use and other risk behaviours
- socio-demographics, postal code, and socio-economic status

STUDY INFORMATION & INFORMED CONSENT

Note: Variable names are in square brackets	
LANGUAGE	<p>Select your language and click "Continue." Sélectionnez votre langue et cliquez sur « Continue ».</p> <p>1= English 2=Français (Canadien)</p> <p>UNIVERSE: ALL</p>
	<p>To see if you are eligible for this survey, please answer a few short questions about yourself. Your responses will remain strictly confidential.</p>
COUNTRY [COUNTRY]	<p>PROGRAMMER NOTE: IF COUNTRY=3 (Other), individual must be disqualified from survey. This is a mandatory question.</p> <p>What country do you currently live in?</p> <p>1= Canada 2= USA 3= Other</p> <p>PROGRAMMER NOTE: If COUNTRY=3 OR LANGUAGE=2 AND COUNTRY=2, THEN: “Thank you for your time.” END SURVEY</p> <p>UNIVERSE: ALL</p>
AGE [AGE]	<p>How old are you today? _____ [numeric]</p> <p>PROGRAMMER NOTE: Numeric entry [Value [00] = 16 to 65]; IF [AGE<16 OR >65; “Sorry, you are not eligible to participate in this study, thank you for your time.” This is a mandatory question.</p>
INFO SCREEN [INFO1]	<p>Please read the following information before you decide whether or not to participate.</p> <ol style="list-style-type: none"> 1. The purpose of this research study is to understand marijuana use and the impact of marijuana policies in different [US: “states”, Canada: “provinces”] and countries. 2. You will be asked about marijuana use and your opinions about marijuana use. You will also be asked some questions about other health-related behaviours and your background. 3. This study is being led by Professor David Hammond at the University of Waterloo, Canada.

	<ol style="list-style-type: none"> 4. As a thank you for participating, the survey firm will provide their usual compensation to the panel member. 5. This survey will take about 25 minutes to complete. 6. You must be between 16 and 65 years of age to participate in this study. 7. Participation is voluntary. Some questions are required to complete the survey; for all other questions, you can click 'refuse to answer' to any question you do not wish to answer and will still receive your remuneration. 8. You can withdraw from the study at any time by closing your browser; however, you will not receive compensation. 9. All of the information you provide will be grouped with responses from other participants, which means that there will be no way to identify participants individually. 10. The data will be stored for a minimum of 7 years on a secure University of Waterloo server. Researchers will <u>not</u> collect or use internet protocol (IP) addresses or other information which could link your responses to your computer or electronic device. When information is transmitted over the internet, privacy cannot be guaranteed. There is always a risk your responses may be intercepted by a third party (e.g., government agencies, hackers). 11. This study has been reviewed and received ethics clearance through a University of Waterloo Research Ethics Committee (ORE #31330/22392). If you have questions for the Committee contact the Office of Research Ethics, at 1-519-888-4567 ext. 36005 or ore-ceo@uwaterloo.ca. 12. For all other questions about the study, please contact Professor David Hammond of the University of Waterloo at 1-519-888-4567 ext. 36462 or david.hammond@uwaterloo.ca. <div data-bbox="495 1015 665 1125"> <p>UNIVERSITY OF WATERLOO</p>  </div>
<p>CONSENT [CONSENT]</p>	<p>Based on the information you received, do you agree to take part in this research study being conducted by Professor David Hammond of the University of Waterloo?</p> <p>1=Yes 2=No</p> <p>PROGRAMMER NOTE: If CONSENT=2, THEN: "Thank you for your time." END SURVEY</p>

CONSUMER INFORMATION — CANNABIS

KNOW THE FACTS

If you have any health issues, are using cannabis for medical purposes, or have questions about the effects of cannabis on your health, you should speak with your healthcare practitioner.

CONSUMPTION BASICS

START LOW AND GO SLOW

- Start with small amounts
- Choose products with a low amount of THC (delta-9-tetrahydrocannabinol) and an equal or higher amount of CBD (cannabidiol)
- Avoid combining cannabis with alcohol and/or other substances as it increases impairment
- Use cannabis in a safe and familiar environment and with people you trust
- Avoid smoking cannabis
- Avoid frequent use
- Store cannabis securely and away from children and youth

Ways of using cannabis	When effects could begin	How long effects could last
Smoking/vaporizing	Seconds to minutes	Up to 6 hours*
Swallowing (food/capsules)	30 minutes-1.5 hours	Up to 12 hours*
Under the tongue	5-30 minutes	Up to 12 hours*

* some effects could last as long as 24 hours

IF YOU USE CANNABIS, YOU COULD EXPERIENCE:

- Impaired ability to remember, concentrate or react quickly
- Sleepiness
- Nausea or vomiting
- Anxiety, fear, or panic

FREQUENT USE OVER A LONG TIME CAN:

- Hurt your lungs and make it harder to breathe (if smoked)
- Affect your mental health
- Make you physically dependent or addicted

If you or someone you know needs support for problematic use of cannabis, contact your healthcare practitioner or your local addiction treatment centre.

KNOW THE RULES AND STAY SAFE

- Don't drive high
- Don't go to work impaired
- Buy from a legal source
- Know and follow the rules about where you can use cannabis in your community
- Don't carry more than 30 g in public (unless authorized)

BRINGING CANNABIS OR ANY PRODUCT CONTAINING CANNABIS INTO CANADA OR TAKING IT OUT OF CANADA IS **ILLEGAL**, AND CAN RESULT IN SERIOUS CRIMINAL PENALTIES AT HOME AND ABROAD.

If you have comments, questions or feedback about a product, contact the manufacturer.

For more information visit Canada.ca/cannabis.
